The late Combatants—Eden and Baker had a friendly bout in the theatre last night for the benefit of the latter. They were loudly obsered on their appearance by their friends. The two young men scarcely exhibit any traces of their late severe usage. The Serenading Company from the Alert helped to enliven the evening. Tracey and Marseden, their trainers, were leadly called for and saids until the contribution in the afternoon, and at a very considerable pace bowled along towards the Blackrock was seen in advance, and in this, as it afterwards utrued out, was the gentleman occupying a hoose of the sown. ITEMS FROM LILLOOET. -We announce with much pleasure that our A catalogue of items, or rather a memorial respected townsman Mr. Thomas Harvey, has been forwarded to the people's memand Mr. William Browin, of Cirencester, will ber of Council for this district, requesting his sail for Jamaica by the next mail steamer. advocacy on matters local and general; amongst others he has been advised of our They go out on a mission of inquiry with the sanction and under the encouragement of desire for " Union of the Colonies." It bears desire for "Union of the Celonies." It bears a autographs of the majority and principal men in the place. It is to be supposed we are all in the place. It is to be supposed we are all pulling for the best, notwithstanding it is patent to unprejudiced minds that "self ever rules the world"—that one all pervading five cent idea pocket and profit is the New Westminster reason for running disunion here sice, versus settlers in the interior. "Stumploto-Front-street"—"Beelzebub" divided against the other fallen angels. Of topics that may interest: first, the roads and intervening lakes have been open for travel all the winter. A big slide had occurred on the Pemberton portage, near Summit lake, blocking up the road. Ten good natured fellows worked at it two days for glory, and its all right again. Of weather, we have had every variety, dry and cold predominating: the difference between the coidest day this winter and the hottest in the sun last summer was 152 degrees Farenheit. As the Yankoer the collected from the ranks could have been selected from the ranks could have been selected from the ranks of his profession. the Society of Friends. It will be rememautographs of the majority and principal men bered that Mr. Harvey was the companion of the late Joseph Sturge on his philanthropic visit to the West Indies 29 years ago. The special object of this second visit to the largest of our West India possessions is to form as accurately as possible a comparative view of the state of the population now with that which presented itself to the observation of the travellers in 1837. We look for the results of this comparison with deep interest.

All who know our fellow townsman will All who know our fellow townsman will agree with us that no one could have been chosen better fitted than he by impartiality and soundness of judgment, by scrupulous regard for truth, as well as by an intolligent benevolence, for ascertaining the difference between the rolligious, social, and material condition of Jamaica in 1837 and 1866. Mr. Harvey and his colleague go with no idea whatever of "making cut a case" for the negro any more than for the owners of estates and employers of labor, or the Jamaica Assembly itself. Their simple object is the truth (for or against whomsoever it may tell,) in order that thus a proper foundation may be laid for future legislative or individual efforts in behalf of the real interests of all classes in the island. Doubtless they do not flatter themselves with the belief of being the only persons to throw light on whater and the hottest in the sun last summer was 152 degrees Farenheit. As the Yankoe gal says, it blew, and snew, and friz, and thew, and friz again, orful to contemplate.

Men are beginning to scatter for Bridge river. Two parties have gone up to Gun Creek, Cadwalader & Co. have left for Te-haston Creek, where Cadawalder says he can make four or five dollars a day till the weather allows him to go up to the creek called after him. Chapman, Trimble & Co. have gone twenty miles up to the foot of the big canyon to cut lumber for slucing a claim they took up last fall: the best prospect on this claim was a bit to the pan. Since the above was written the lake has frozen up. We raised a subscription, and have built a concern some thing like what the Southerners captured Fert Sumter with: it is a nondescript armace. HEROIC CONDUCT-On Tuesday night a heavy gale raged here from S.W. and S.S. W. John Tye, the master of the smack Queen Victoria, of this port, 35 tons, carry-Chinaman, named questionably "Why," stabbed his chum this week. Nobody pretends that a first-rate surgeon or a great painter is not as valuable a citizen as the assurest lawyer who ever fought; but custom—a most foolish one—decrees that secience, art, genus and philanthrophy must be content with the esteem in which they are held, and the substantial rewards which skill and fame are sure to bring. Burns, and Irritating Sores.—The peculiarly mild, southing, anti-inflammatory power exerted by this Continent strongly recommends its use to all persons who have charge of children. Accidents will occur in the nursery in spite of the greatest caution and utmost vigilance. The scratch, the burn, or the scald, treated early with this Oist-

ment, assumes no angry aspect, and naver long tortues the little sufferer, whose very ery excites cach bystander's compassion and pierces the parents heart. Every nurse should consider this invaluable Onitanent an essential to a well appointed nursery. The Ontment is applicable to any ore, whatever its character. It conducts to health as sure as the compass points to the north.
